ENG - READ CAREFULLY !!!

Before installing and using the snow chains, please read your vehicle's use and maintenance booklet provided by the manufacturer carefully: most manufacturers provide indications on how to use snow chains. Thule will not respond for any damage to property and/or people and/or animals caused by improper use of the snow chains, or that do not comply with indications given in your vehicle's use and maintenance booklet. Data found in this catalogue comes from compatibility tests carried out on vehicles using Thule snow chains. Said tests only refer to the vehicles as produced and commercialised by the manufacturer and tested by Thule. The technical and manufacturing characteristics of vehicles and tyres can be varied by manufacturers. Said variations do not have to be communicated

by the manufacturer. Variations can be introduced after tests carried out by Thule and can affect correct assembly and/or how snow chains work on the vehicle. Thule takes no liability for any difference in technical and/or manufacturing characteristics of vehicles and/or tyres tested to those of the customer's vehicle and/or tyres. In any case, before using the snow chains, we advise doing a trial assembly test in safe conditions, checking, for a short stretch going slowly, that there is no interference between chain and the vehicle's mechanical parts. Data in this catalogue is purely indicative for the user. The latter must control and check that its vehicle and tyre characteristics allow the snow chains to be mounted and used correctly. If your vehicle or tyre is not included in this catalogue, please contact our Customer Service at the email address sc.tech.support@thule.com. This edition cancels and replaces any previous versions; they thus lose all effectiveness. However, you are kindly requested to check whether there is a more updated version available by consulting our website www.thule.com in the section "Fit Guide" or by contacting our Customer Service at the email address sc.tech.support@thule.com.
